

Press Release

Bank of Innovation Inc.

May 16, 2007

Video Search Engine Fooooo can now search in 10 languages

Searches in 10 languages such as English, Spanish, Chinese, French, German and Korean available

We announce that Fooooo, a video search engine that can search 28,000,000 videos out of 50 international video sharing sites, can now be searched in 10 languages.

English: <http://en.fooooo.com/>

Chinese: <http://cn.fooooo.com/>

French: <http://fr.fooooo.com/>

German: <http://de.fooooo.com/>

Italian: <http://it.fooooo.com/>

Korean: <http://ko.fooooo.com/>

Portuguese: <http://pt.fooooo.com/>

Russian: <http://ru.fooooo.com/>

Spanish: <http://es.fooooo.com/>

Taiwanese: <http://tw.fooooo.com/>

By studying our users, we figured out that 40% of Fooooo's users access from countries other than Japan. Having realized the need of corresponding to each language, Fooooo is determined to add more languages for searches in order to establish Fooooo as an international platform of video search.

We also seek for global partners that are from countries that speak 10 languages written abroad.

Product/ Service Detail

World's top class amount of videos (more than 23,000,000). Lumping search from 50 international video sharing sites
