Bank of Innovation is actively expanding to the overseas. Responding to many requests from the users, Bank of Innovation developed a Facebook application for Fooooo.

Facebook, which is a No. 2 SNS that has 25,000,000 people signed in, allows the third party companies and developers to develop applications that can be used within Facebook.

There are about 3000 application developed for Facebook, however, there are no other video search application besides from Fooooo's. We offer you the very first video search engine application for Facebook users.

Product/ Service Detail
